

## Your future at your fingertips: cooperative, international, global IT Project Manager (f/m/x)

### International software implementation projects

MIC is leading worldwide in the automation of global customs and trade compliance processes. With our software solutions, we ensure safe and efficient customs clearance within the legal frameworks for more than 800 customers - like VW, Zalando, or IKEA - on 6 continents.

As an IT Project Manager you are responsible for the successful implementation of MIC software modules (in Java, PLSQL/Oracle DB) at our international customers (big corporations). An exciting position in an international work environment awaits you, where you can bring in both, your technical skills and organizational competence.

#### Your job

- 🌐 You are responsible for managing and executing the project through its entire life cycle in time, scope, budget, and quality according to CMMI guidelines
- 🌐 You are constantly monitoring the project and are fast in identifying upcoming changes in time, scope or budget
- 🌐 The whole change request process from the first specification to the hand over to support is in your hand
- 🌐 You define specifications of gaps, as a basis for the Software developers (creating user stories, Jira tickets) and prioritize together with the Development team
- 🌐 You are configuring our software according to our customers' needs
- 🌐 You are coordinating and planning release or patch upgrades during the project
- 🌐 Creating, executing and documenting test cases together with the customer is also an important aspect of your role
- 🌐 You cooperate closely with the Sales Department (support in customer projects), the Product Development and Software Support (hand over after the Hypercare phase)
- 🌐 You are regularly reporting to the Team Manager

#### Your skills and qualifications

- 🌐 Completed education in IT (vocational High school for IT, Bachelor's or Master's degree)
- 🌐 Very good IT project management skills developed by several years of practical experience in IT project management
- 🌐 A profound understanding of relational databases, SQL statements and ideally Oracle DB
- 🌐 Good knowledge of object-oriented programming languages (ideally with Java)

- 🌐 Proactive, analytical and structured way of working
- 🌐 Technical affinity, hands-on attitude during the entire project life cycle
- 🌐 Very good communication skills and a customer oriented approach
- 🌐 Fluent in German and English
- 🌐 Openness for business travel (max. 10%) and international cultures

#### We offer you

- 🌐 Privately owned, stably growing world market leader with 11 offices on 3 continents
- 🌐 International context with global players as customers
- 🌐 Cooperative, appreciative and respectful culture based on diversity, equal treatment and fair pay
- 🌐 Your personal training plan, organized by the MIC Academy, as well as your mentor support your professional onboarding
- 🌐 Individual development and career opportunities
- 🌐 Flexibility in a hybrid work environment allows you to combine your career, studies and private life

#### Compensation

We are legally required to mention the compensation for this position. We offer a minimum salary of € 63.000 gross/year (38,5 hours/week, no All-in contracts) plus an employee bonus and numerous other benefits. Of course, we are adapting the compensation according to your experience and qualification. week; no all-in contracts) plus a general employee bonus and numerous benefits.
