

## Searching for Global Player: Software Quality Engineer (f/m/x) International software implementation projects

MIC is leading worldwide in the automation of global customs and trade compliance processes. With our software solutions, we ensure safe and efficient customs clearance within the legal frameworks for more than 700 customers - like VW, Zalando, IKEA, Panasonic - on 6 continents.

You are being appreciated for your accurate and quality-focused work style? Your expectation is to deliver high-quality software to clients together with a young and dynamic team of Software Engineers? Then we have an interesting opportunity for you in our Projects Department:

### Your job

- 🌐 You are responsible that high quality customer specific code is delivered to our clients and non-functional requirements (e.g.: usability, performance) are met
- 🌐 You support the Software Developer team in implementing, testing, reviewing, and creating user guides as well as technical documentation
- 🌐 As a Quality Engineer, you create and maintain internal customer testing environments
- 🌐 Software Release activities are also part of your role
- 🌐 Collaborating with other team members is key: Specifically in the design and development of new or changed features
- 🌐 You create, execute, and maintain manual and automated tests in close cooperation with the Developers
- 🌐 You maintain and improve builds and continuous integration
- 🌐 In close cooperation with the Product Development team, you strive for constantly improving development and quality assurance activities

### Your skills

- 🌐 Bachelor or Master's Degree (Computer Science, Economic and Computer Science or equivalent) or Vocational High School for IT
- 🌐 Good knowledge of Java or other object-oriented Programming language
- 🌐 Knowledge of PL/SQL advantageous
- 🌐 You have a good understanding of software design and software architecture

- 🌐 You have first experience with build tools (Jenkins), test automation tools and frameworks (Cucumber, JUnit, etc.)
- 🌐 You are familiar with quality assurance methodologies and tools, software usability
- 🌐 You enjoy collaborating with other team members and you have a very accurate workstyle
- 🌐 You are an analytical thinker who brings in new perspectives on technical excellence
- 🌐 You have very good English skills (written & spoken), German skill are beneficial

### Our offer

- 🌐 Privately owned and permanently growing company
- 🌐 World market leader with 11 offices on 3 continents
- 🌐 Cooperative, appreciative and respectful teamwork
- 🌐 International context with global players
- 🌐 Professional on-boarding, MIC Academy training
- 🌐 Flexibility and individual career options

### Compensation

We are legally required to mention the compensation for this position. We offer a minimum salary of € 39.760 gross/year (38,5 hours / week, no All-in contracts) plus an employee bonus and numerous other benefits. Of course, we are adapting the compensation according to your experience and qualification.
