
## Your future at your fingertips: cooperative, international, global

# Senior SAP ABAP Developer (m/w) | 101126

**MIC is the worldwide leading provider** of global customs and trade compliance software solutions. More than 700 customers, in 48+ countries, on six continents, use MIC customs and trade compliance software.

**Your job**

You work in our SAP developer team to connect SAP systems to our MIC products, the focus of development and project activity is in SAP/MM and SD. The contact with our international customers makes it very varied.

- Maintenance as well as new and further development of existing interfaces in ABAP considering customer-specific requirements
- Design, development and implementation of new programs in ABAP
- Documentation of the source code
- Project support in SAP (analysis, specification and realization of customer requirements, on-site contact with customers)
- Analysis and resolution of productive interface problems
- Support for key users in process matters

**Your skills**

- Completed computer science education (HTL, FH, University) with multi-annual professional experience
- Good skills in SAP ABAP, ABAP OO and DDIC; Knowledge in SAP/MM, SAP/SD and SAP/PP is an advantage
- Good knowledge in dealing with interface formats (IDoc, XML) and with ALEs, RFCs and WebServices
- Good skills in JAVA
- Windows and Unix/Linux
- Fluent in English
- Proactive and independent way of working
- Good understanding of economic issues

**Our offer**

- Privately owned and permanently growing company
- World market leader with 8 offices, in 6 countries, on 3 continents
- Cooperative, appreciative and respectful teamwork
- International context with global players
- Professional on-boarding, MIC Academy training
- Various benefits

**Compensation**

€ 3.100 — € 4.100

We offer a salary according to your qualifications and experience ranging from € 3,100 to € 4,100 gross/month (basis: 38,5 hours per week; no all-in contracts) plus a general employee bonus and numerous benefits
