

Your future at your fingertips: cooperative, international, global FullStack Java Software Engineer (f/m/x) Evolve our Cloud-Products!

MIC is leading worldwide in the automation of global customs and trade compliance processes. With our software solutions, we ensure safe and efficient customs clearance within the legal frameworks for more than 800 customers - like VW, Zalando and IKEA on 6 continents.

You are a Software Engineer, want to utilize your personal and technical skill set and continuously grow in a self organized agile environment?
Then join us and shape the future of our product suite!

As a Software Engineer in our product development it is your mission to collaborate closely with experienced colleagues in order to design and consistently improve our Software solutions while embracing challenges with creative innovations.

Your job

- 🌐 You plan new features within the team and implement them in bi-weekly sprints with a big emphasis on stability and long term quality of our software
- 🌐 You work mainly with our core technologies JavaEE and Oracle Databases (PL/SQL)
- 🌐 Depending on different teams and your personal preference you will also get to work with technologies like React, Kubernetes, Quarkus, Python, etc.
- 🌐 You have exciting development perspectives such as Senior-/Lead Software Engineer, IT Project Manager and more

This is you

- 🌐 Cross-functional team player with high quality awareness & strong analytical skills
- 🌐 Independent and structured way of working paired with the drive to continuously grow and learn
- 🌐 Good Java and Database skills
- 🌐 Knowledge in the area of CI/CD and Container-Technologies are a plus
- 🌐 Proficient in English (written & spoken)
- 🌐 Completed education in IT and some years of relevant working experience

Our offer

- 🌐 Privately owned, stably growing world market leader with 11 offices on 3 continents
- 🌐 International context with global players as customers
- 🌐 Cooperative, appreciative and respectful culture based on diversity, equal treatment and fair pay
- 🌐 Personal training plan (MIC-Academy) and professional onboarding supported by your mentor
- 🌐 Individual development and career opportunities
- 🌐 Flexibility in a hybrid work environment allows you to combine your career, studies and private life

Compensation

We are legally required to mention the compensation for this position. We offer a minimum salary of € 53.200 gross/year (38,5 hours / week, no All-in contracts) plus an employee bonus and numerous other benefits. Of course, we are adapting the compensation according to your experience and qualification.
